

Woodland Park Ave Traffic Calming Project

What's happening?

We're making changes to Woodland Park Ave between N 42nd St and N 43rd St to lower traffic speeds, discourage cut-through traffic, and improve safety for everyone. This project was requested by your neighbors and is funded by a Neighborhood Matching Fund grant from the Department of Neighborhoods.

We expect to begin construction as soon as this month. Three days before construction, you'll see temporary "No Parking" signs posted in the work area to let you know work is about to start.

Project elements

- Street narrowing using paint and flexible posts.
- Curb bulbs to improve visibility at intersections. This means we'll use paint and flexible posts to mark "No Parking" areas near intersections and crosswalks.

What to expect during construction?

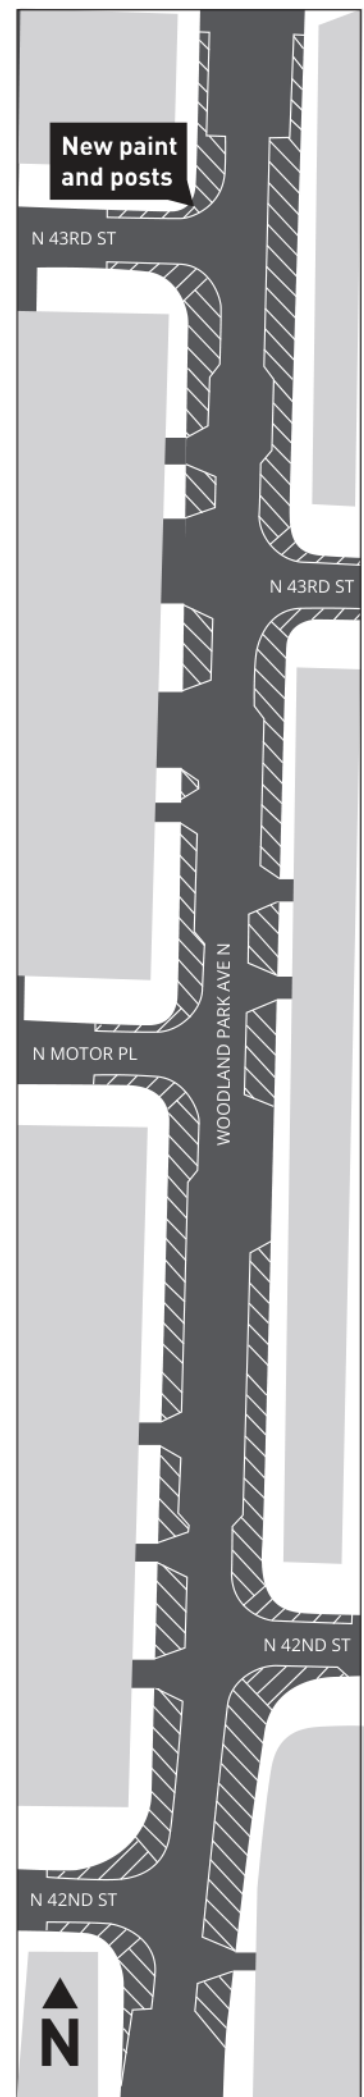

- You will see temporary "No Parking" signs at least 72 hours before construction begins
- Work will occur between 7 AM – 5 PM
- Work may occur on weekdays or weekends
- Parking will be restricted on both sides of the street during construction
- Construction equipment, materials, noise, dust, and activity in the work area

What does this mean?

Woodland Park Ave will be narrowed in some areas, and drivers will need to slow down and yield to oncoming traffic, similar to nearby streets like Whitman Ave N.

Are you removing parking?

We are not removing any legal parking spaces. The areas we're marking as permanent "No Parking" are spots where parking is already illegal, like near intersections and crosswalks. By keeping these areas clear, we're improving visibility so drivers and people walking can see each other more easily, making the street safer for everyone.

Why are we doing this?

Your fellow community members applied for and won a Neighborhood Matching Fund grant to help fund traffic calming improvements. This project is designed to reduce speeding, discourage cut-through traffic, and improve safety for everyone.

When will this happen?

Construction is expected to begin as soon as this month. You'll know when we're about to begin when you see temporary "No Parking" signs out a few days before we start construction.
